Subject: BUSD Tech: GoGuardian and your Parents/Guardians

Dear Students,

Please see the message below from BUSD Tech. If you have any questions, you can reach out to Max Eissler.

We have enabled GoGuardian Parent, which is an app that gives parents and guardians the opportunity to monitor and manage their children's browsing activity. We want you to know what it means for you as a student.

Harmful content and cyber threats are everywhere online, and we aim to protect you from them with the use of tools like GoGuardian.

A healthy school environment is built on safety, trust, and transparency. To ensure that your safety is a top priority, we believe in being transparent with your guardians about your online activity.

With the new GoGuardian Parent app, your guardians will now have access to your browsing activity, recent top 5 websites, apps and extensions on your school-issued devices. They will also be able to block websites and pause internet access on your school-issued device when you are not at school. Your parents are there to help keep you safe, and the app provides them with what they need to do that.

In order to bring you an effective digital learning environment, it's important to open the lines of communication with the adults who have your best interest at heart.
